

# Emergency Medicine Ultrasound Level 1

## A Day of Supervised Scanning Practice

Scanning Practice (no lectures) in all L1 (Core) competence areas: AAA, FAST, Vascular Access and ECHO for Life Support

organised by Infomed Research & Training on **Wednesday 28 June 2017**, at the Infomed Training Suite, Northside House, 69 Tweedy Road, Bromley BR1 3WA

### About the L1 Scanning Practice Day

**No lectures, just practice, practice, practice.**

#### Are you a doctor who...

is seeking further opportunities for:

- supervised ultrasound scanning** in each of the L1 (Core) competence areas (FAST, AAA, Vascular Access and ECHO in Life Support) on models, patients and phantoms,\* or
- boosting your **logged experience** by getting a number of **signed scans**, or
- polishing up your L1 competencies, or
- preparing for the RCEM Finishing School?**
- ...**supervised practice, practice and practice!!**

**If so, then this is the day for you!**

(\* *basic knowledge of Ultrasound and knobology is assumed; preferably, you will have attended a RCEM-approved L1 introductory course.*)

#### What you get is supervised scanning practice:

The opportunity to **perform AAA scans, FAST scans, ECHO scans and Vascular Access scans** on models, patients and phantoms, which can serve as preparation for assessment or simply form part of your logged experience.

**Just four trainees per supervisor:** continuous personalised feedback in line with RCEM competences and assessment criteria, plus opportunities to learn from others' mistakes!

The **Practice Day** is based on the Practice Sessions of the highly successful RCEM Finishing School.

**Please note:** RCEM recommends that no more than 3 months should elapse without the trainee using her/his US scanning skills; otherwise the trainee must be re-assessed with a DOPS by a trainer.

### Programme

The trainees rotate in groups of four through **skills stations** covering AAA, FAST, Vascular Access and ECHO in Life Support. Each station includes one scanner, one supervisor and a live model, phantom or patient as appropriate

Timings (with breaks for tea and coffee and for lunch)

08.30	Registration
09.10	Start
17.00	Close

### What attendees have said about the Day

- Being taught by different faculty at each station and [getting] your mistakes corrected on the spot – made the day very useful
- Lots of practice – small groups, so good individual feedback
- Lots of practice and excellent demonstrators
- Teachers were very helpful and approachable
- I learnt where I was going wrong – plenty of good pointers and tips. I vastly improved my [scanning] skills
- [The Course] did what it said on the tin –practice, practice, practice! Instructors all very good and patient!
- Great instructors, great models, great pace
- Insightful, informative, open and excellent hands-on experience
- Excellent – feedback always constructive, no pressure environment
- Enthusiastic, knowledgeable faculty; good cases, including normals; very good organisation
- Excellent faculty, friendly and helpful
- Lots of experts meant lots of top tips from different people
- A long day – but worth it
- Heartfelt thanks to the tutors and the organisers. I feel almost ready for my assessment.
